5.2—PLANNING FOR EDUCATIONAL IMPROVEMENT

Each school in the district, in collaboration with administrators, teachers, other school staff, parents, the community, and students, shall develop a school-level improvement plan (SLIP) to:

- Establish goals or anticipated outcomes based on an analysis of students' needs;
- Identify student supports and evidence-based interventions and practices to be implemented;
- Describe the professional learning necessary for adults to deliver the supports or interventions;
- Describe the implementation timeline for monitoring of the interventions and practices for effectiveness;
- Describe the timeline and procedures for evaluation of the interventions and practices for effectiveness;
 and
- Evaluate and modify a parent, family, and community engagement plan.

Each SLIP shall include a literacy plan that includes a curriculum program and a professional development program that is aligned with the District's literacy needs and is based on the science of reading.

Some of the data that shall be considered when developing the SLIP includes, but is not limited to:

- Statewide assessment results;
- o Interim assessment results;
- o Similarly situated school's SLIPs; and
- Evaluation(s), including staff, student, and community feedback, of the existing SLIP.

The SLIP is to be reviewed on an ongoing basis with reports to the board on the implementation progress of the SLIP throughout the year of implementation. By May 1 of each year, the SLIP to be implemented in the upcoming school year shall be presented to the District Board of Directors for review and approval. The District will post the District's SLIP(s) to the District's website under State-Required Information by August 1 of each year.

The district shall develop, with appropriate staff; school board members; and community input, a school district support plan (SDSP). The SDSP, in coordination with the District's SLIPs, shall:

- Identify resources to support the established priorities;
- Describe the time and pace of providing support and monitoring for the established priorities;
- Describe the measures for analyzing and evaluating that the District support was effective in improving the school performance; and
- Establish, evaluate, and update a parent, family, and community engagement plan.¹

If the Districts data reflects a disproportionality in equitable access to qualified and effective teachers and administrators, the District shall develop and implement strategies to provide equitable access as part of the SDSP.

The District shall post the District's SDSP to the District's website under State-Required Information, including any updates to the District's SDSP.⁵

The District's Board of Directors shall hold a meeting by October 15 of each year to provide a report that systematically explains the District's policies, programs, and goals to the community. The District's report shall detail the progress of the District and the District's schools toward accomplishing program goals, accreditation standards, and proposals to correct any deficiencies. The report shall be made available to the public, including by posting a copy on the District's website under State-Required Information no later than ten (10) days following the meeting. The meeting shall provide parents and other members of the community the opportunity to ask questions and make suggestions concerning the District's program.

5.3—CURRICULUM DEVELOPMENT

Sequential curricula should be developed for each subject area. Instructional and supplemental materials are selected for their compatibility with the District's educational program and their ability to help fulfill the District's educational goals and objectives. Individuals wishing to challenge or express concerns about instructional or supplemental materials may do so by filling out a *Challenge to Instructional Material* form available in the school's office.

The contesting individual may present a copy of the form to the principal and request a conference be held at a time of mutual convenience. Prior to the conference, the principal shall consult with the teacher regarding the contested material. 5.7—SELECTION OF LIBRARY/MEDIA CENTER MATERIALS

The ultimate authority for the selection and retention of materials for the schools' media centers rests with the Board of Education which shall serve as a final arbiter in resolving a challenge to any media center materials. Licensed media center personnel shall make the initial selections in consultation with school and district licensed staff. Materials selected shall be in accordance with the guidelines of this policy.

The purpose of the schools' libraries/media centers is to supplement and enrich the curriculum and instruction offered by the District. Promoting the dialogue characteristic of a healthy democracy necessitates the maintenance of a broad range of materials and information representing varied points of view on current and historical issues. In the selection of the materials and resources to be available in each library/media center consideration will be given to their age appropriateness. Materials should be available to challenge the different interests, learning styles, and reading levels of the school's students and that will help them attain the District's educational goals.

Selection Criteria

The criteria used in the selection of media center materials shall be that the materials:

- 1. Support and enhance the curricular and educational goals of the district;
- 2. Are appropriate for the ages, learning styles, interests, and maturity of the schools' students, or parents in the case of parenting literature;
- 3. Contribute to the examination of issues from varying points of view and help to broaden students understanding of their rights and responsibilities in our society;
- 4. Help develop critical thinking skills;
- 5. Are factually and/or historically accurate, in the case of non-fiction works and/or serve a pedagogical purpose;
- 6. Have literary merit as perceived by the educational community; and
- 7. Are technically well produced, physically sound (to the extent appropriate), and represent a reasonably sound economic value.

Retention and Continuous Evaluation

Media center materials shall be reviewed regularly to ensure the continued appropriateness of the center's collection to the school's curriculum and to maintain the collection in good repair. Those materials no longer meeting the selection criteria, have not been used for a long period of time, or are too worn to be economically repaired shall be withdrawn from the collection and disposed of. A record of withdrawn media materials including the manner of their disposal shall be maintained for a period of three years.

Gifts

Gifts to the media centers shall be evaluated to determine their appropriateness before they are placed in any media center. The evaluation shall use the same criteria as for all other materials considered for inclusion in the media centers. Any items determined to be unacceptable shall be returned to the donor or disposed of at the discretion of the media specialist. The media centers shall have a list of desired items to give to prospective donors to aid them in their selection of materials to donate.

Challenges:

The parent of a student affected by a media selection, or a District employee may formally challenge the appropriateness of a media center selection by following the procedure outlined in this policy. The challenged material shall remain available throughout the challenge process.

Before any formal challenge can be filed, the individual contesting (hereinafter complainant) the appropriateness of the specified item shall request a conference through the principal's office with a licensed

media center employee. The complainant shall be given a copy of this policy and the *Request for Formal Reconsideration Form* prior to the conference. The meeting shall take place at the earliest possible time of mutual convenience, but in no case later than five (5) working days from the date of the request unless it is by the choice of the complainant.

In the meeting, the media specialist shall explain the selection criteria and how the challenged material fits the criteria. The complainant shall explain his/her reasons for objecting to the selected material. If, at the completion of the meeting, the complainant wishes to make a formal challenge to the selected material, he/she may do so by completing the *Request for Formal Reconsideration Form* and submitting it to the principal's office.

To review the contested media, the principal shall select a committee of five (5) or seven (7) licensed personnel consisting of the principal as chair and at least one media specialist. The remaining committee members shall be personnel with curriculum knowledge appropriate for the material being contested and representative of diverse viewpoints. The task of the committee shall be to determine if the challenged material meets the criteria of selection. No material shall be withdrawn solely for the viewpoints expressed within it and shall be reviewed in its entirety and not selected portions taken out of context.

The principal shall convene a meeting after a reasonable time for the committee members to adequately review the contested material and the *Request for Formal Reconsideration Form* submitted by the complainant. The complainant shall be allowed to present the complaint to the committee after which time the committee shall meet privately to discuss the material. The committee shall vote by secret ballot to determine whether the contested material shall be removed from the media center's collection. A member from the voting majority shall write a summary of the reasons for their decision. A notice of the committee's decision and the summary shall be given (by hand or certified mail) to the complainant.

If the decision is to not remove the material, the complainant may appeal the committee's decision to the district Board of Directors by filing a written appeal to the Superintendent within 5 working days of the committee's decision or of written receipt of the decision. The Superintendent shall present the original complaint and the committee's decision along with the summary of its reasons for its position plus a recommendation of the administration, if so desired, to the Board within 15 days of the committee's decision. The Board shall review the material submitted to them by the Superintendent and make a decision within thirty (30) days of receipt of the information. The Board's decision is final.

5.8—USE OF COPYRIGHTED MATERIALS

The Board of Education encourages the enrichment of the instructional program through the proper use of supplementary materials. To help ensure the appropriate use of copyrighted materials, the Superintendent, or his designee, will provide district personnel with information regarding the "fair use" doctrine of the U.S. Copyright Code as detailed in the "Agreement on Guidelines for Classroom Copying in Not-for-Profit Educational Institutions with Respect to Books and Periodicals" and "Guidelines for Educational Uses of Music."

The District will not be responsible for any employee violations of the use of copyrighted materials.

5.9—COMPUTER SOFTWARE COPYRIGHT

The District shall observe copyright laws governing computer software reproduction. Unless specifically allowed by the software purchase agreement, the Copyright Act allows the purchaser of software to:

- 1. Make one copy of software for archival purposes in case the original is destroyed or damaged through mechanical failure of a computer. However, if the original is sold or given away, the archival copy must be destroyed;
- 2. Make necessary adaptations to use the program; and/or
- 3. Add features to the program for specific applications. These improvements may not be sold or given away without the copyright owner's permission.

The District shall abide by applicable licensing agreements before using computer software on local-area or wide-area networks.

5.10—RELIGION IN THE SCHOOLS

The First Amendment of the Constitution states that "Congress shall make no law respecting the establishment of religion, or prohibiting the free exercise thereof..." As the Supreme Court has stated (*Abington School District v, Schempp*, 374 U.S. 203) the Amendment thus, "embraces two concepts—freedom to believe and freedom to act. The first is absolute but, in the nature of things, the second cannot be." Therefore, it is the Board's policy that the school system, as an agency of the government, shall be neutral in matters regarding religion and will not engage in any activity that either advocates or disparages religion. The District shall assume no role or responsibility for the religious training of any student.

The need for neutrality does not diminish our school system's educational responsibility to address the historical role of religion in the development of our culture. Since we live in a diverse society, the District's goal shall be to address the subject of religion objectively in such a way that it promotes an understanding of, and tolerance for, each other's religious or non-religious views.

Discussions concerning religious concepts, practices, or disciplines are permissible when presented in a secular context in their relation to an inclusive study of religion or to the study of a particular region or country. The discussions shall be such that they are objective and academically informational and do not advocate nor denigrate any particular form of religious practice.

The teacher in charge of each classroom may, at the opening of school each day, conduct a brief period of silence with the participation of all students in the classroom who desire to participate.

Students and employees may engage in personal religious practices, such as prayer, at any time, and shall do so in a manner and at a time so that the educational process is not disrupted.

5.11—DIGITAL LEARNING COURSES

Definitions

For the purposes of this policy:

"Blended Learning" is education in which instruction and content are delivered through supervised instruction in a classroom and online delivery of instruction with some element of student control over time, place, path, or pace.

"Digital Learning" means a digital technology or internet-based educational delivery model that does not rely exclusively on compressed interactive video (CIV). Digital learning includes online and blended learning.

"Instructional Materials" means:

- 1. Traditional books, textbooks, and trade books in printed and bound form;
- 2. Activity-oriented programs that may include:
 - a. Manipulatives;
 - b. Hand-held calculators;
 - c. Other hands-on materials; and
- 3. Technology-based materials that require the use of electronic equipment in order to be used in the learning process.

"Online Learning" is education in which instruction and content are delivered primarily over the Internet. The term does not include print-based correspondence education, broadcast television or radio, videocassettes, compact disks and stand-alone educational software programs that do not have a significant Internet-based instructional component.

"Public School Student Accessing Courses at a Distance" means a student who is scheduled for a full course load through the District and attends all classes virtually.

Digital Course Offerings

The District shall offer one or more digital learning course(s) through one or more District approved provider(s) as either a primary or supplementary method of instruction. The courses may be in a blended learning, online-based, or other technology-based format and shall be tailored to meet the needs of each student.

All digitally offered courses shall meet or exceed the State Board of Education's curriculum standards and requirements and be capable of being assessed and measured through standardized or local assessments. Additionally, the District shall ensure there is sufficient infrastructure to handle and facilitate a quality digital learning environment.

As an approved digital learning provider, the District shall annually determine what District created digital learning courses it will provide to our students. The District may also choose to provide digital learning courses by contracting with outside providers of such courses, who have been pre-approved by the DESE. The School Board shall determine the provider method or combination of methods for the District. The Superintendent shall ensure that all digital learning courses provided to District students, regardless of the source of the course, have been approved by DESE.

District created digital courses and any digital courses the district purchases from outside providers shall adhere to the guidelines for the use of digitally transmitted copyrighted materials set forth in Policy 5.8—USE OF COPYRIGHTED MATERIALS as well as applicable statutory requirements.

The District shall require all outside providers to incorporate Policy 5.8 as a condition of the service contract. Failure of the outside provider to abide by Policy 5.8 shall constitute a breach of contract and the outside provider shall be responsible for any costs resulting from such breach.

A student may elect to take any or all of his/her scheduled courses digitally. The student's attendance in his/her digital course(s) shall be determined by the online attendance and time the student is working on the course rather than the student's physical presence at school.

The District is responsible for providing all instructional materials for each student who enrolls in a District approved digital learning course.

Regardless of any other provisions of this policy, the District may restrict a student's access to digital courses when the student's building principal determines the student's participation in such a course would not be academically appropriate based on the student's past performance in digital courses. Furthermore, the student's building principal may revoke a student's eligibility to continue taking a digital learning course if the student's performance during the semester indicates the student is not succeeding in the course.

5.12 PROMOTION / RETENTION/ACADEMIC REQUIREMENTS

A disservice is done to students through social promotion and is prohibited by state law. The district shall, at a minimum, evaluate each student annually in an effort to help each student who is not performing at grade level. The Maynard School District shall include in the student handbook the criteria for promotion of students to the next grade as well as the criteria for being required to retake a course, if applicable. Parents or guardians shall be kept informed concerning the progress of their student(s). Notice of a student's possible retention or required retaking of a course shall be included with the student's grades sent home to each parent/guardian or the student if 18 or older. Parent-teacher conferences are encouraged and may be held as necessary in an effort to improve a student's academic success.

Promotion or retention of students, or their required retaking of a course shall be primarily based on the following criteria;

- 1. Students in grades 1-8 must pass 3 of the 4 core subjects (Math, Social Studies, Science and Language Arts) to be promoted to the next grade.
- 2. Students in grades 9-12 or younger students taking courses for credit may lose credit in a course based on grades and/or attendance. The student may be required to retake the course if that credit is required for graduation.

If there is doubt concerning the promotion or retention of a student, or their required retaking of a course, a conference between the parents/guardians, teacher(s), other pertinent personnel, and principal shall be held before a final decision is made. The conference shall be held at a time and place that best accommodates those participating in the conference. The school shall document participation or non-participation in required conferences. If the conference attendees fail to agree concerning the student's placement, the final decision shall rest with the principal or his/her designee.

Students who do not score proficient or above on their grade level Benchmark Exams *or do not meet the satisfactory passing level on all general end-of-course (EOC) tests* shall be required to participate in an individualized Academic Improvement Plan (AIP). Each AIP shall be developed by school personnel and the student's parents and shall be designed to assist the student in attaining the expected achievement level. The AIP shall also state the parent's role as well as the consequences for the student's failure to participate in the plan.

All students, unless exempted by the student's individualized education plan (IEP) must successfully pass all general EOC assessments they are required to take. To receive academic credit in a course requiring a student to take a general EOC assessment, the student must either receive a passing score on the initial assessment or successfully participate in the remediation program identified in his/her AIP. A student is not eligible to graduate if he/she fails to receive academic credit in a course requiring a general EOC. Additionally, the lack of credit could jeopardize their grade promotion or classification.

All students, unless exempted by the student's IEP, must successfully pass the Algebra I EOC assessment to receive academic credit for the course and be eligible to graduate from high school. This is a high stakes assessment and students failing to receive a passing score the first time they take the assessment must receive a passing score on a subsequent assessment or on an alternative assessment as provided by law.

F. Students from an Arkansas public school who have completed and received credit on an Algebra I EOC assessment prior to the 2009-2010 school year are not required to take the high stakes Algebra I EOC. Students

NOT in grades 10,11, or 12 in the 2009-2010 school year who have taken Algebra I but not received proper academic credit on their transcript for the course are now required to take the high stakes Algebra I test before they can receive academic credit for the course. Students in grades 10, 11, or 12 in the 2009-2010 school year are exempt from the high stakes Algebra I assessment requirement, but must meet the general EOC assessment requirements to receive credit for the course.

Students transferring into the district from an out-of-state public, private, or home school, or an Arkansas private or home school who can demonstrate by an official transcript that he/she has received academic credit for Algebra I is not required to take the Algebra I high stakes EOC assessment. The district, however, has the right to assess the student's education status to determine if the student possesses the requisite passing knowledge of Algebra I.

Students transferring into the district that do not have academic credit in Algebra I must take the Algebra I high stakes EOC assessment and meet its requirements to be eligible for graduation.

Promotion/retention or graduation of students with an Individual Educational Plan (IEP) shall be based on their successful attainment of the goals set forth in their IEP.

The number of accumulated credits necessary to be classified in a certain grade is as follows:

10th grade status- 5 core credits 11th grade status- 11 core credits

12th grade status- 17 core credits and completion of at least the first semester of the 11th grade

5.12—COMPUTER SCIENCE INTERNSHIPS AND INDEPENDENT STUDIES

Internships

The Board of Directors believes that students who intend to begin careers immediately upon high school graduation or intend to complete post-secondary training prior to starting a career can benefit from an internship experience. The desired outcomes of the District's internship program include students advancing computer science skills, sharpening soft-skills, and learning new skills while in a workplace environment. The internship program provides intense, competency-based worksite immersion in advanced computer science concepts while linking the internship participants to current resources, information, and guidance from computing professionals.¹

Students who wish to participate in the internship program shall submit an application to the building principal. In order for a student to be eligible to participate in the internship program, the student must have:

- 1. Received enough credits to qualify as a junior;
- 2. Either:
 - Have at least one (1) credit from <u>Division of Elementary and Secondary Education (DESE)</u> approved computer science course; or
 - Submit computer science work product that satisfactorily demonstrates the competencies expected within the (DESE) Computer Science Standards to Maynard; and
- 3. At least a 3.0 GPA.

The student participating in an internship program is responsible for making sure the building principal receives documentation authenticated by the student's supervisor of the hours worked by the student, proof of the student having completed projects, and regular evaluations of the student's work by the student's internship supervisor.

A student who completes a computer science internship shall receive credit for the internship as a Computer Science Flex Credit⁴ based on the amount of documented on-the-job work hours as follows:

- a. Half (1/2) credit for completing sixty (60) on-the-job work hours; or
- b. One (1) credit for completing one hundred twenty (120) on-the-job work hours.

Independent Studies

A Computer Science Independent Study Program shall be designed to enrich the student's computer science educational experience. A student who desires to complete an independent study shall:

- 1. Either:
 - Have at least one (1) credit from an ADESE approved computer science course; or
 - Submit computer science work product that satisfactorily demonstrates the competencies expected within the ADESE Computer Science Standards to a local advisor⁵;
- 2. Develop an educational plan that is tied directly to extending the computer science concepts found within:
 - The most current revision of the Arkansas High School Computer Science Standards;
 - College Board AP Computer Science Principles or A; and/or
 - IB Computer Science SL or HL;
- 3. Submit the study plan to a local advisor for approval;
- 4. Have at least a 3.0 GPA; and
- 5. Produce a final product for presentation.

The advisor⁵ is responsible for reviewing, monitoring, and approving the student's study plan. The study plan should include anticipated objectives that allow the advisor to evaluate the student's study progress. The student is responsible for submitting regular written reports to the advisor⁵ concerning the student's progress towards the student's independent study goals.

The student's hours of study shall be documented by the most appropriate of the following methods:

- Being assigned a class period during the instructional day that is dedicated to the student's independent study;
- O Using the District's system to track student time for digital courses if the student's attendance and assignments are through a digital classroom; and

O Using another hour tracking system approved by the district Superintendent that provides for accurate tracking of hours and provides safeguards against improper reporting by the student.

A student who completes a computer science independent study shall receive credit for the independent study as a Computer Science Flex Credit⁴ based on the amount of documented study hours as follows:

- a. Half (1/2) credit for completing sixty (60) study hours; or
- b. One (1) credit for completing one hundred twenty (120) study hours.

5.14 HOMEWORK

Homework is considered to be part of the educational program of The District. Assignments shall be an extension of the teaching/learning experience that promotes the student's educational development. As an extension of the classroom, homework must be planned and organized and should be viewed by the students as purposeful.

Teachers are aware of the potential problem students may have completing assignments from multiple teachers and will monitor the amount of homework they give from day to day.

Parents shall be notified of this policy at the beginning of each school year.

5.15 GRADING POLICY/SEMESTER TESTS

The following grading scale shall be used at Maynard Public Schools:

90 - 100 A = 4 points

80 - 89 B = 3 points

70 - 79 C = 2 points

60 - 69 D = 1 point

59 and below F = 0 points

*AP Courses are on a 5 point grading scale; see section 5.21

Progress reports will be sent according to the district calendar. Grades assigned to students reflect only educational objectives and are consistent with laws and regulations.

If a student is having difficulty in class, the teacher(s) may call the parent for assistance in helping the student.

All 7th through 12th grade students may be exempt from their final tests during the fall and spring semester. The following qualifications for exemptions will apply:

- 1. Exemptions will be based on academic performance, absenteeism, tardies and disciplinary actions*.
- 2. Students may take final exams in lieu of exemptions in an attempt to raise grade averages.
- 3. A student may be exempt from semester test if:
 - a. He/she has a 90% or above average for the semester and has 5 or fewer excused absences in classes for the semester; or
 - b. He/she has an 80% or above average for the semester and has 3 or fewer excused absences in classes for the semester; or
 - c. He/she has a 70% or above average for the semester and has no absences in classes for the semester.

*There will be no exceptions to the attendance provisions of the semester test exemption policy. *Any student with 4 or more tardies in a class will lose their opportunity for exemption in that class. *Students that receive out-of-school suspension or two (2) or more instances of I.S.S. may not be eligible for field trips, school dances, *exemptions from school*, etc.

Semester Tests must be taken on the assigned days and times or made up on a date approved by the Principal. Students must have a valid written excuse approved by the principal to make up a missed exam. Semester test scores shall count as 20% of the semester grade.

Students may come for their first test of the day and leave after their last test if they have a note with parents' permission. Students who are exempt from all of their tests for the day must stay home. If they are on campus they will forfeit their exempt status and be required to take their tests that day.

5.15—GRADING

Parents, legal guardians, persons having lawful control of a student, or persons standing in loco parentis shall be kept informed concerning the progress of their student. Parent-teacher conferences are encouraged and may be requested by parents, guardians, persons having lawful control of a student, persons standing in loco parentis, or teachers. If the progress of a student is unsatisfactory in a subject, the teacher shall attempt to schedule a parent-teacher conference. In the conference, the teacher shall explain the reasons for difficulties and shall develop, cooperatively with the parents, a plan for remediation, which may enhance the probability of the student succeeding. The school shall also send timely progress reports and issue grades for each nine (9) week grading period¹ to keep parents/guardians informed of their student's progress.

The evaluation of each student's performance on a regular basis serves to give the parents/guardians, students, and the school necessary information to help effect academic improvement. Students' grades shall reflect only the extent to which a student has achieved the expressed educational objectives of the course.

The grades of a child in foster care shall not be lowered due to an absence from school due to:²

- 1. A change in the child's school enrollment;
- 2. The child's attendance at a dependency-neglect court proceeding; or
- 3. The child's attendance at court-ordered counseling or treatment.

The grading scale for all schools in the district shall be as follows:

A = 100 - 90

B = 89 - 80

C = 79 - 70

D = 69 - 60

F = 59 and below

For the purpose of determining grade point averages, the numeric value of each letter grade shall be:

A = 4 points

B = 3 points

C = 2 points

D = 1 point

F = 0 points

The grade point values for Advanced Placement (AP), approved courses for weighted credit, International Baccalaureate (IB), and approved honor courses shall be one (1) point greater than for regular courses with the exception that an F shall still be worth zero (0) points.

The final grades of students who transfer in for part of a semester will be determined by blending the grades earned in the district with those earned outside the district. Each final grade will be the sum of the percentage of days in the grading period transferred from outside the district times the transferred grade from outside the district plus the percentage of days in the grading period while in the district times the grade earned in the district.

For example: The grading period had forty (40) days. A student transferred in with a grade of eighty-three percent (83%) earned in ten (10) days at the previous school. The student had a grade of seventy-five percent (75%) in our district's school earned in the remaining thirty (30) days of the grading period. Ten (10) days is twenty-five percent (25%) of forty (40) days while thirty (30) days is seventy-five percent (75%) of forty (40) days. Thus the final grade would be $(0.25 \times 83) + (0.75 \times 75) = 77\%$.

Alternative Progression

A student who does not have credit for any computer science course, the introductory level computer science course for the particular computer science emphasis, or the preceding level course for the computer science emphasis may be placed in a computer science course based on any combination of the following factors:

- The student's grade point average;
- Recommendation from the student's teacher(s);
- Completion of computer science internships or independent studies;
- Demonstration of previous computer science work by the student; or
- Proficiency report from a computer science proficiency evaluation tool.

The honor student with the second highest GPA and who has been enrolled in Maynard High School for his/her entire senior year shall serve as the salutatorian of his/her graduating class.

The GPA's for valedictorian, salutatorian, and honor graduates will be determined after the last Friday in April.

Beginning with the class of 2014- Honor graduate status will be given to seniors who have completed the Smart Core curriculum, have taken two years of the same foreign language, and have a cumulative GPA of 3.5 in classes taken in grades 9-12.

Seniors will be given information regarding Honor Graduate requirements and Arkansas Challenge Scholarship requirements at the beginning of the year. Those who choose not to pursue these accomplishments will sign a waiver to be kept on file until graduation.

GRADUATION POLICY: It is the policy of the Maynard School Board that students who fail to accumulate sufficient credits for graduation from Maynard High School by the prescribed date of graduation will not be allowed to participate in the formal graduation exercises.

Due process will be provided to all members of the senior class in the following manner:

- 1. The high school counselor will notify all seniors in jeopardy of failing to achieve sufficient credits during a one week time period following the second and third nine-week grading periods.
- 2. Written notification will be sent from the high school principal's office to the parents of the seniors in jeopardy of not graduating. The same time line will be followed for written notification as verbal notification. This notification will be by certified mail and a copy of the letter will be kept on file in the student's permanent file.
- 3. The composite picture of graduates shall include only those students that meet graduation requirements.
- 4. Graduating seniors will have a color choice of blue and/or white or black and/or gold for caps and gowns.

Students in grades 7-12 who participate in the Smart Core Curriculum and maintain a 4.0 GPA for the grading period will be recognized as honor roll students for that grading period. Students in grades 7-12 who participate in the Smart Core Curriculum and maintain a 3.0 GPA for the grading period will be recognized as merit roll students for that grading period. Semester grades will determine the merit roll at the end of each semester.

Students in grades 1-6 who maintain a 4.0 grade point average (GPA) for the grading period will be recognized as honor roll students for that grading period. Students In grades 1-6 who maintain a 3.0 grade point average (GPA) for the grading period will be recognized as merit roll students for that grading period. Semester grades will determine the honor roll at the end of each semester. Parents or guardians of a student, or a student who is eighteen (18) years of age or older, who choose not to have the student publicly identified as an honor roll or honor graduate student must submit a written request that the student <u>not</u> be so identified.

The Board believes that healthy children promote a better learning environment, are more capable of high student achievement, and will result in healthier, more productive adults. Therefore, the goal of the District's health services is to promote a healthy student body. This requires both the education of students concerning healthy behaviors, as well as providing health care services to pupils.

While the school nurse is under the supervision of the school principal, the delegation of health care duties shall be in accordance with the Arkansas Nurse Practice Act and the Arkansas State Board of Nursing Rules Chapter Five: Delegation of Nursing Care.

5.19—EXTRACURRICULAR ACTIVITIES –

*Our policy combines 5.19 and 5.19.1 Definitions:

"Academic Courses" are those courses for which class time is scheduled, which can be credited to meet the minimum requirements for graduation, which is taught by a teacher required to have State licensure in the course or is otherwise qualified under Arkansas statute, and has a course content guide which has been approved by the Arkansas Department of Education (ADE). Any of the courses for which concurrent high school credit is earned may be from an institution of higher education recognized by ADE. If a student passes an academic course offered on a block schedule, the course can be counted twice toward meeting the requirement for students to pass four (4) academic courses per semester as required by this policy. "Extracurricular activities" are defined as: any school sponsored program where students from one or more schools meet, work, perform, practice under supervision outside of regular class time, or are competing for the purpose of receiving an award, rating, recognition, or criticism, or qualification for additional competition. Examples include, but are not limited to, inter/intrascholastic athletics, cheerleading, band, choral, math, or science competitions, field trips, and club activities. "Field Trips" are when individual students or groups of students are invited to programs or events when there is no competition and the students are not interacting with each other for the purpose of planning, qualifying, or arranging for future programs or for the purpose of receiving recognition. "Interscholastic Activities" means athletic or non-athletic/academic activities where students compete on a school vs. school basis.

"Intrascholastic Activities" means athletic or non-athletic/academic activities where students compete with students from within the same school.

"Supplemental Improvement Program (SIP)" is an additional instructional opportunity for identified students outside of their regular classroom and meets the criteria outlined in the current Arkansas Activities Association (AAA) Handbook.

Extracurricular Eligibility

The Board believes in providing opportunities for students to participate in extracurricular activities that can help enrich the student's educational experience. At the same time, the Board believes that a student's participation in extracurricular activities cannot come at the expense of his/her classroom academic achievement. Interruptions of instructional time in the classroom are to be minimal and absences from class to participate in extracurricular activities shall not exceed one per week per extracurricular activity (tournaments excepted). Additionally, a student's participation in, and the District's operation of, extracurricular activities shall be subject to the following policy. All students are eligible for extracurricular activities unless specifically denied eligibility on the basis of criteria outlined in this policy.

Any student who refuses to sit for a State assessment or attempts to boycott a State assessment by failing to put forth a good faith effort on the assessment as determined by the assessment administrator/proctor, or whose parents do not send their student to school on the dates the assessments are administered or scheduled as make-up days shall not be permitted to participate in any non-curriculum related extracurricular activity. The student shall remain ineligible to participate until the student takes the same or a following state mandated assessment, as applicable, or completes the required remediation for the assessment the student failed to put forth a good faith effort on. The superintendent or designee may wave this paragraph's provisions when the student's failure was due to exceptional or extraordinary circumstances. Students falling under the provisions of this paragraph shall be permitted to attend curriculum related field trips occurring during the school day.

High School students will be excluded from school trips if they have 6 or more absences, have been to ISS two times, or have been suspended that semester. If the absences are due to extenuating circumstances (accident, prolonged illness, etc.) students may participate at the principal's discretion.

ACADEMIC REQUIREMENTS: Junior High

A student promoted from the sixth to the seventh grade automatically meets scholarship requirements. A student promoted from the seventh to the eighth grade automatically meets scholarship requirements for the first semester. The second semester eighth-grade student meets the scholarship requirements for junior high if he/she has successfully passed four (4) academic courses the previous semester, three (3) of which shall be in the core curriculum areas specified by ADE's Standards for Accreditation of Arkansas Public Schools.

The first semester ninth-grade student meets the scholarship requirements for junior high if he/she has successfully passed four (4) academic courses the previous semester, three (3) of which shall be in the core curriculum areas specified by ADE's Standards for Accreditation of Arkansas Public Schools.

The second semester ninth-grade student meets the scholarship requirements for junior high if he/she has successfully passed (4) academic courses the previous semester which count toward his/her high school graduation requirements.

Ninth-grade students must meet the requirements of the senior high scholarship rule by the end of the second semester in the ninth grade in order to be eligible to participate the fall semester of their tenth-grade year.

ACADEMIC REQUIREMENTS: Senior High

In order to remain eligible for competitive interscholastic activity, a student must have passed (4) academic courses the previous semester and either:

- 1) Have earned a minimum Grade Point Average (GPA) of 2.0 from all academic courses the previous semester; or
- 2) If the student has passed four (4) academic courses the previous semester but does not have a 2.0 GPA the student must be enrolled and successfully participating in an SIP to maintain their competitive interscholastic extracurricular eligibility.

STUDENTS WITH AN INDIVIDUAL EDUCATION PROGRAM

In order to be considered eligible to participate in competitive interscholastic activities, students with disabilities must pass at least four (4) courses per semester as required by their individual education program (IEP).

ARKANSAS ACTIVITIES ASSOCIATION

In addition to the foregoing rules, the district shall abide by the rules and regulations of AAA governing interscholastic activities. AAA provides catastrophic insurance coverage for students participating in AAA governed extracurricular activities who are enrolled in school. As a matter of District policy, no student may participate in a AAA governed extracurricular activity unless he or she is enrolled in a district school, to ensure all students are eligible for AAA catastrophic insurance.

Intrascholastic Activities

AAA Governed Activities

Students participating in intrascholastic extracurricular activities that would be governed by AAA if they were to occur between students of different schools shall meet all interscholastic activity eligibility requirements to be eligible to participate in the comparable intrascholastic activity. The District will abide by the AAA Handbook for such activities to ensure District students are not disqualified from participating in interscholastic activities.

Non-AAA Governed Activities

Unless made ineligible by District policies, all students shall be eligible to participate in non-AAA governed intrascholastic extracurricular activities. Intrascholastic activities designed for a particular grade(s) or course(s) shall require the student to be enrolled in the grade(s) or course(s).

5.19.1—EXTRACURRICULAR ACTIVITIES -

Interruptions of instructional time in the classroom are to be minimal and absences from class to participate in extracurricular activities shall not exceed one per week per extracurricular activity (tournaments or other similar events excepted with approval of the principal. All students are eligible for extracurricular activities unless specifically denied eligibility on the basis of criteria outlined in this policy.

A student may lose his/her eligibility to participate in extracurricular activities when, in the opinion of the school's administration, the student's participation in such an activity may adversely jeopardize his/her academic achievement. Students may also be denied permission to participate in extracurricular activities as a consequence of disciplinary action taken by the administration for inappropriate behavior. In order for a student to participate in peewee basketball, field trips, or any other extracurricular activity, the student must have a 2.0 grade point, which is a "C" average, and an attendance rate of 92% or better. Students' negative behavior at ballgames or other school sponsored activities may result in their being banned from subsequent activities as well as receiving other consequences outlined in the Student Handbook.

Any student who refuses to sit for a State assessment or attempts to boycott a State assessment by failing to put forth a good faith effort on the assessment as determined by the assessment administrator/proctor, or whose parents do not send their student to school on the dates the assessments are administered or scheduled as make-up days shall not be permitted to participate in any non-curriculum related extracurricular activity. 5.19.2—EXTRACURRICULAR ACTIVITY ELIGIBILITY FOR HOME SCHOOLED STUDENTS

Home-schooled student means a student legally enrolled in an Arkansas home school and who meets or has met the criteria for being a home-schooled student, as established by A.C.A. § 6-15-503.

Interscholastic activity means an activity between schools subject to regulations of the Arkansas Activities Association that is outside the regular curriculum of the school district, such as an athletic activity, fine arts program, or a special interest group or club.

Home-schooled students whose parents or guardians are legal residents of the school district will be permitted to pursue participation in an interscholastic activity in the student's resident school zone as permitted by this policy. Although not guaranteed participation in an interscholastic activity, home-school students who meet the provisions of this policy, AAA Rules, and applicable Arkansas statutes shall have an equal opportunity to try out and participate in interscholastic activities without discrimination.

To be eligible to try out and participate in interscholastic activities, the student or the parent of a student shall mail or hand deliver the student's request to participate to the student's school's principal before the signup, tryout or participation deadline established for traditional students. Additionally, the student shall demonstrate academic eligibility by obtaining a minimum test score of the 30th percentile or better in the previous 12 months on the Stanford Achievement Test Series, Tenth Edition; another nationally recognized norm-referenced test; or a minimum score on a test approved by the State Board of Education.

A student who meets the requirements for eligibility to participate in an interscholastic activity is required to register for at least one course in the District's school where the student is intending to participate in an interscholastic activity. The student shall regularly attend the class in which the student is registered beginning no later than the eleventh (11th) day of the semester in which the student's interscholastic activity participation is desired. The student must attend the practices for the interscholastic activity to the same extent as is required of traditional students.

A home-schooled student who has met the try out criteria; and who has been selected to participate in the interscholastic activity shall meet the following criteria that also apply to traditional students enrolled in the school:

- standards of behavior and codes of conduct;
- attend the practices for the interscholastic activity to the same extent as is required of traditional students;
- required drug testing:
- permission slips, waivers, physical exams; and
- participation or activity fees.

Students who participate in extracurricular or athletic activities under this policy will be transported to and from the interscholastic activities on the same basis as other students are transported.

A student who withdraws from an Arkansas Activities Association member school to be home-schooled shall not participate in an interscholastic activity in the resident school district for a minimum of three hundred sixty-five days after the student withdraws from the member school.

5.20—DISTRICT WEBSITE

5.29—WELLNESS POLICY

The health and physical well-being of students directly affects their ability to learn. Childhood obesity increases the incidence of adult diseases occurring in children and adolescents such as heart disease, high blood pressure and diabetes. The increased risk carries forward into their adulthood. Research indicates that a healthy diet and regular physical activity can help prevent obesity and the diseases resulting from it. It is understood that the eating habits and exercise patterns of students cannot be magically changed overnight, but at the same time, the Board of Directors believes it is necessary to strive to create a culture in our schools that consistently promotes good nutrition and physical activity.

The problem of obesity and inactivity is a public health issue. The Board of Directors is keenly aware that it has taken years for this problem to reach its present level and will similarly take years to correct. The responsibility for addressing the problem lies not only with the schools and the Division of Elementary and Secondary Education (DESE) but with the community and its residents, organizations and agencies. Therefore, the District shall enlist the support of the larger community to find solutions that improve the health and physical activity of our students.

Wellness Committee

To enhance the district's efforts to improve the health of our students, a School Nutrition and Physical Activity Advisory Committee (SNPAAC) shall be formed. It shall be structured in a way to ensure age-appropriate recommendations are made that correlate to the District's grade configurations. The SNPAAC shall have the powers and responsibilities delegated to it by statute and Rule and are incorporated into this policy by reference. The overarching goal of the committee shall be to promote student wellness by monitoring how well the District is doing at implementing this policy. The SNPAAC shall use modules 1, 2, 3, 4, 10, and 11 of the Centers For Disease Control' (CDC) School Health Index as a basis for annually assessing each school's progress toward meeting the requirements of this policy. The results of the annual assessment shall be included in the school district's support plan (SDSP), provided to each school's principal, and reported to the board. Goals and objectives for nutrition and physical activity shall also be included in the SDSP.

The SNPAAC shall be made up of Individuals from the following groups to the extent interested persons from each group desire to be included in the development, implementation, and periodic review of the District's wellness policy:

- Members of the District's Board of Directors:
- School administrators;
- School nutrition personnel;
- Teacher organizations;
- Teachers of physical education:
- Parents;
- Students:
- Professional groups (such as nurses);
- School health professionals (such as school nurses, school counselors, and social workers); and
- Community members.

The SNPAAC shall provide written recommendations to the District's Child Nutrition Director concerning menus and other foods sold in the school cafeteria. Such recommendations shall be based, at least in part, on the information the Committee receives from the District on the requirements and standards of the National School Lunch Program and from menus for the National School Lunch Program and other food sold in the school cafeteria on a quarterly basis.

The SNPAAC will meet at least quarterly. Meeting dates for the SNPAAC will be placed on the District's calendar.

School Health Coordinator

To assist the SNPAAC in ensuring that the District fulfills the requirements of this policy, a District level School Health Coordinator (Designated District Official) shall be appointed. In addition, a school level School Health Coordinator shall be appointed who shall be responsible for assisting the District level School Health Coordinator in ensuring that each school fulfills the requirements of this policy.

Goals

In its efforts to improve the school nutrition environment, promote student health, and reduce childhood obesity, the District will adhere to the DESE Rules Governing Nutrition and Physical Activity Standards And Body Mass Index For Age Assessment Protocols. To promote nutrition, physical activity, and other school based activities that will improve student wellness, the District, working with the SNPAAC, has established the following goals:

- 1. Implement a grade appropriate nutrition education program that will develop an awareness of and appreciation for nutrition and physical activity throughout the curriculum;
- 2. Enforce existing physical education requirements and engage students in healthy levels of vigorous physical activity;
- 3. Strive to improve the quality of physical education curricula and increase the training of physical education teachers;
- 4. Follow the Arkansas Physical Education and Health Education Frameworks in grades K-12;
- 5. Not use food or beverages as rewards for academic, classroom, or sports performances;
